This event is meant to raise awareness and funds for 2 local charities: Multiple Sclerosis and Autism. Multiple Sclerosis is a chronic, commonly disabling disease that attacks the central nervous system. Autism is a developmental brain disorder affecting 1 out of every 110 children. Join us as we increase knowledge, raise funds, and help make a difference for these 2 local charities.

What is the return for my organization's support of this important health awareness event? An opportunity to link your company with Without Limits Racing to raise awareness and help make a difference in the lives of those with Multiple Sclerosis and to provide treatment to children who have been diagnosed with Autism Spectrum Disorders.
